

Datacom Options

ENWORK

▲ : Power/Data units in this category come standard with data openings and a Voice/Data Adapter kit. Adapters from the kit are used to install jacks or couplers (ordered separately from Enwork or supplied by the customer) into the data openings of the power/data unit. Voice/data options are punch down. Audio/video options are inline.

● : Power/Data units in this category come standard with datacom plate openings. Datacom plates must be ordered from Enwork or openings can be left empty. Datacom plates can be configured to include multiple voice, data, audio and video solutions. Voice/data options are punch down. Audio/ video options are inline.
